TANA AND ATHI RIVERS DEVELOPMENT AUTHORITY

TARDA TREE SEEDLINGS

Tana and Athi Rivers Development Authority (TARDA) is a State Corporation established by an Act of Parliament CAP 443 in 1974 with the core mandate of planning, coordinating and implementing integrated projects and programmes. The Authority undertakes various initiatives including natural resource management, environmental conservation, irrigation development, and sustainable land use to support socio-economic growth within the Tana and Athi basins.

As part of our environmental conservation and climate resilience efforts, TARDA has established tree nurseries to support afforestation and landscape restoration programs. Through these nurseries, we produce a variety of quality tree seedlings suitable for agroforestry, environmental restoration and landscaping.

We are pleased to inform you that we are currently undertaking the sale of tree seedlings from our nurseries with fair prices for sustainability. The seedlings are available in different species and quantities across our nursery sites. A summary catalogue is as indicated below. We welcome you to purchase and support tree growing initiatives and environmental conservation efforts.

Kindly contact us on info@tarda.go.ke; or through our regional coordinator Mr. Gibson mwakideu +254 722 363 876
